Our Winter Camp will be held at Hotel La Betulla, a 3 star hotel in La Polsa resort run by Mr Girardelli, who is glad to warmly welcome our guests. The hotel is by the resort centre and offers doorstep skiing and excellent service, being located just 100m from the ski school meeting point and the slopes. All rooms have private facilities, including hair dryer and safe. The food is excellent. There is a large room with a large projector screen available, which can be used as a disco and for movies or Nintendo Wii nights. La Betulla also offers the opportunity to take cooking lessons and to bake your own pizza in a real pizza oven. Free internet wireless connection is available in the lobby and in the bar.

The skiing is pleasant, safe and scenic: You will enjoy skiing with an overlook on world-famous Lake Garda and Verona, the city of Romeo and Juliet. The slopes are uncrowded, and the area is particularly suitable for beginners and intermediates. There is a combination of 40km slopes, mostly on wide open snowfields. Beginners make genuine fast progress on the novice runs, whilst several long and wide blue runs give them the opportunity to become familiar with higher altitudes. Intermediates can experience a variety of medium grade runs, while the resort's black runs are a challenge, in particular the newly designed "Rosa del Sole" ("the Sun Rose"). Snowboarders and Free Riders will enjoy the nearby "Polso Double Park," the resort's brand-new Snow Park, one of the biggest in Italy. All ski instructors are F.I.S.I (Italian Winter Sports Federation) certified.

Monte Baldo welcomes you! Our mountain is located in the Italian Alps. The name derives from the German Wald, "forest". It appears for the first time in a German map in 1163. Its position between the Adige Valley and Lake Garda allows you to enjoy splendid panoramas that span from the Brenta Dolomites to the blue waters of Lake Garda to the south. Due to its position rising above the plains, when Monte Baldo stretched out of ice during the Ice Age, Monte Baldo has preserved unique, endemic plant species and has gained the name of Hortus Italiae. The Bes Corna Piana Botanical Park, a protected reserve, was established on its ski slopes in 1972.
